Terms of Service – Hideaway Uploader

Last updated: October 20, 2026

1. The service

Hideaway Uploader is a personal, single-user tool that uploads the owner's own original videos to the owner's own TikTok account using TikTok's Content Posting API (Direct Post). It is not offered to the public.

2. Acceptable use

The owner will only upload content they created or have the rights to publish, and will comply with TikTok's Terms of Service and Community Guidelines. The app must not be used to post spam, misleading content, or content that infringes anyone's rights.

3. Accounts and access

Access is granted through TikTok's official OAuth login. The owner is responsible for keeping their TikTok credentials secure and may revoke the app's access at any time from their TikTok settings.

4. Availability

The app is provided "as is", without warranties of any kind. Posting depends on TikTok's API availability and approval status; features may change if TikTok changes its platform.

5. Limitation of liability

To the maximum extent permitted by law, the app owner is not liable for indirect or consequential damages arising from the use of this personal tool.

6. Changes

These terms may be updated as the app evolves. Continued use after changes means acceptance of the updated terms.

7. Contact

Questions about these terms can be directed to the app owner through their TikTok account.
